about me

I have over 15 years experience as a residential Interior Designer and Architectural Draftsperson and am now emerging further within the industry within the commercial and hospitality sector.

I absolutely love an eclectic design style. With anything in life, I love layers. I see layers in everything I look at whether it be a landscape, light reflecting off of water, a messy studio. I believe this to be my strongest quality as a designer because I autonomously pull everything a part for it to be more than it appears to be as from the naked eye.

capabilities & skills

- AutoCAD;
- Revit;
- Adobe Indesign;
- Canva;
